

Citigate Dewe Rogerson

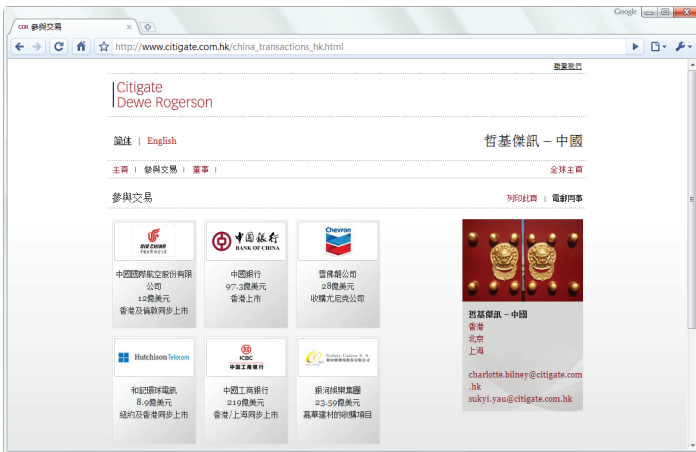

Your partner for online success.

International website
managed from multiple
countries and in
multiple languages

www.citigatedewerogerson.com

Multiple sub sites in many countries

Chinese language version of sub-site

Challenge:

Citigate Dewe Rogerson had a website that was difficult to update and did not represent the company's global reach.

Solution:

Sitekit CMS was selected and deployed so that web editors could easily update and manage their section of the website from anywhere in the world. The Sitekit CMS multilingual management tools made it easy for editors to manage their local sub sites in multiple languages.

Result:

The Citigate Dewe Rogerson website is now managed from 20 regional offices. The website represents the true global reach of the organisation.
